Warranty claim procedure

Thank you for reviewing the VELUX America Inc. warranty procedure. It is our desire to handle any concerns on a VELUX product or installation in an efficient manner. To assist you in the process we have set up the following procedure to guide our valuable customers.

With over 65 years of experience producing skylights, we have found that the most frequent problem regarding product concerns relates to proper installation. Thus, the first step of the warranty procedure is to verify with your builder, installer or remodeler that the installation of your VELUX product was completed according to the relevant VELUX instructions, thus:

1 Step If you have concerns with your VELUX product or installation, please contact your builder, remodeler or installer, who should inspect the product and installation to verify that installation is according to our instructions.

We find that most of the concerns by consumers are resolved in this step.

2 Step (if necessary) If there is a concern following Step 1, have the builder, remodeler or installer contact VELUX customer service department directly at:

VELUX America Inc.

PO Box 5001 • Greenwood, SC 29648-5001
Tel 1-800-88-VELUX • velux.solutions@VELUX.com

So that VELUX can provide the best response possible, please include the following information when contacting us:

- Your name, address, and phone number.
- A description of the product and the product model number (located on the identification label attached to each product).
- A description of the product concern.
- Details of attempts to address concern.

Once you have contacted VELUX customer service department, you may be asked to complete a product information form. The form will be emailed or faxed and helps expedite your service request.

3 Step Upon completion of the product information form, the call is escalated to our technical service department. This department is comprised of technical experts with years of experience handling product and installation concerns. Our technical service department will try to resolve your issue over the phone or provide parts as outlined in our limited warranty. Additional product installation information may be requested before proceeding further.

4 Step If our technical service department cannot solve the concern, a VELUX Solutions service contractor will schedule an appointment for an on-site visit. We do request the builder, remodeler or installer also join us on this call. This contractor will evaluate the problem and provide either on-site repair or a plan for resolution. In some cases the resolution involves the builder, installer or remodeler re-installing the product in accordance with our installation procedures. Please note that if it is determined on an on-site visit that the installing contractor incorrectly installed the VELUX product, then an on-site service visit fee will be charged. Thus, Step 1 of this procedure is critical.

In some cases the solution can only be determined by an on-site visit. In these cases additional spare parts may need to be ordered from our factory and a follow-up on-site visit may be necessary.

VELUX may, in its sole discretion, amend or revise this warranty. Please go to www.veluxusa.com/warranty for VELUX most updated warranty claim procedure information.

Thank you in advance for purchasing VELUX products. We want you to know that the overwhelming majority of VELUX customers never need to involve themselves in this process but we hope this overview helps you understand how we would solve a concern regarding an installed VELUX product.
